Power (De-type) Seminar, Part I

Aristotelian Language System

Non-Aristotelian Language System

The Meta Model, Part I

Date

Saturday 26th & Sunday 27th June 2010

Time

9.30 AM to 4.30 PM

Location

345 Lakeshore Road East, Suite 207

Oakville, L6J 1J5

Power (De-type) Seminar

Everyone on this planet is a user of the language of the Aristotelian system of Cause and Effect, a.k.a. the Blame Frame. But, they do not know how to use it pre-meditatively and cognitively. This needs to be amended.

Except for Neuro-Semantic Programmers, no one knows how to use the language of the Non-Aristotelian system of Relativity and Relatedness, a.k.a. No-Y-ian Frame. This also will be amended.

John Grinder and Richard Bandler created 2M, the Meta Model of Neuro-Linguistic Programming. It was configured in the Blame Frame; it was resplendently replete with Implied Causatives. Neuro-Semantic Programming, NSP extracted it out of the BF. NSP corrected certain language formats because they were based on neurological errors. NSP then applied certain critical augmentations and expansions to it. Out of respect to John Grinder and Richard Bandler, NSP decided to name their work 3M.

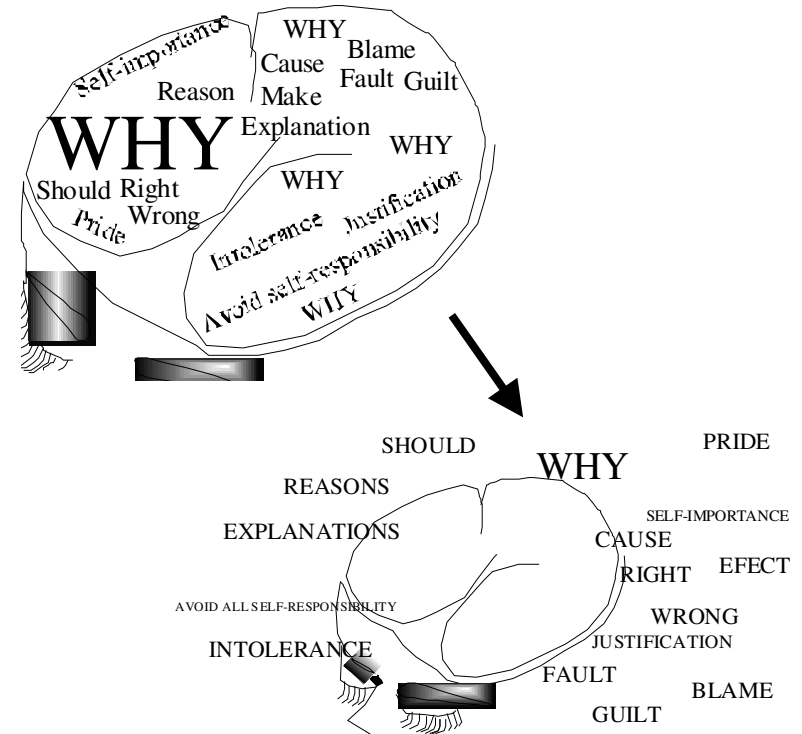

Formal logicians faced the reality that Formal Logic had no utility in life. Ordinary man, woman and child were using a uniquely different logical system. They then set out to explore what people were using. In doing so they discovered the field of Informal Logic. You have it but you do not know how to use it premeditatively and volitionally. This shortcoming will end with this seminar.

There is a language subset that we call the No-Y-ian Model of Language. It unfolds out the logic of the von Neumann Protocol of NSP.

When you master these 4 languages with its subset, your entire reality will change. To help in this process you are to:

1. work in your study groups
2. join the No-Y-ian Tutorial classes

The Desired Outcome of the Power Seminar is:

The Trainers

Dennis and Jennifer Chong have taught before professional forums in N. America, Europe, East and South East Asia and Australia.

Their articles have been published in professional journals in the English-speaking world.

They have published 5 books of which one is published in Germany.

They continue co-shared a clinical practice in Psychotherapy and Hypnotherapy for 31 years.
