Guide to the Light in You

From their research Dennis and Jennifer Chong realized that healing, either a physical or emotional problem, has to do with a change in people's way of being and the power that is within.

Some refer to this power as the light others refer to it as the Chi or a special energy. For convenience the Chong's refer to it as the light of God that is within each one of us.

For example, there are many models that are used for cancer patients such as:

1. the proposition by Robert Dilts to incrementally change the life style of a person so that at its critical mass it will change the person and with it reverse the condition
2. the idea of Hugo Neilsen that the distribution of a person's acupuncture is a metaphor for his life history; if you therefore changed this, you will change his life history and thus his problem
3. the argument by the late Margot Hamblett and Richard Bolstad to use the power of the Chi.
4. the proposal by Dennis Chong and Jennifer K. Smith Chong to use the power of the Light of God,

It was inherent to the model proposed by the Chongs that they had to find a way to guide a person to the Light of God within. It is this critical connection that underpins the chance for the possibility to invert the cancer. It took the Chong's nine years to work this out.

When they did so, they had to test it; and after that to find out if its methodology could be replicated. Once they

confirmed this, they had to determine if the model would work. They chose a willing cancer patient and the result was a success.

They then realized this method could be used for resolving other problem states

We know, from the feedback, that anyone who has attended this workshop comes away with certain unique and personal benefits. Sometimes they have proved to be singularly beneficial and powerful in the life of the person. We simply do not know what will be your benefits. All we can do it is to assure you that you will benefit in some good and excellent way.

In the web page is listed the testimonials of 20 people who did this workshop.
